PROFILE

I am a frontend web developer with strong skills in HTML5, CSS, JavaScript and React.js. I have successfully completed many projects, including eCommerce platforms, Netflix Clone, and Job Portal Web applications. My expertise allows me to build responsive, efficient, and high-quality web applications that meet client requirements and enhance user experience.

WORK EXPERIENCE

Project

Portfolio Website

Live Preview

- I developed my personal portfolio website with strong expertise in HTML, CSS, Tailwind CSS, JavaScript, and React.js. I specialize in creating responsive, user-friendly, and visually appealing websites that provide seamless user experiences.
- I have hands-on experience turning design ideas into fully functional web interfaces using modern technologies and frameworks. I continuously explore new tools and trends in web development to enhance my skills and deliver high-quality results. I am dedicated, detail-oriented, and always

Project

Fashion E-commerec website

Live Preview

- Developed a fashion eCommerce website using React.js, featuring a seamless shopping experience with gradient styling via Tailwind CSS, including product catalog, shopping cart, checkout, and user profile functionalities.
- Built a responsive fashion eCommerce platform with React.js and Tailwind CSS, integrating gradient UI design and essential features like product catalog, shopping cart, secure checkout, and personalized user profiles for an enhanced shopping experience.
